## About Me

Experienced IT professional specializing in NetApp storage management, with strong expertise in server and storage operations. Skilled in managing large-scale infrastructures in high-uptime, high-complexity environments. Committed to delivering reliable, secure, and efficient systems while continuously adapting to new technologies.

## Experience

**Mutiara Selular 08/2021 - 12/2021**

*Computer operator - Internship*

Monitoring the electronic payment transaction system to ensure transactions are secure and run smoothly. This system relies on a host-to-host server connection between servers.

**PT. Indomarco Prismatama (Indomaret Group) 2022 - Now**

*IT Network - System Administrator*

Installing company software and hardware on server products, maintaining and monitoring servers to ensure they run safely and smoothly. Upgrading computer systems to meet company needs. Identifying the causes of network errors and taking the necessary steps to resolve them. Maintaining and monitoring the company's storage devices, with a specific focus on NetApp storage systems, to ensure they remain in a normal and secure condition, as well as managing all operations related to the storage systems.

## Education

2021

**Telkom University**

Associate Degree - Computer Engineering

GPA 3.16
